PROJECTS

LinkedIn BadUSB — Keystroke Injection Tool

10/2026 – Present

github.com/stevenhainley/Steves-LinkedIn-BadUSB

- Built a BadUSB on a Raspberry Pi Pico W (CircuitPython, Adafruit HID) that emulates a keyboard to instantly open a LinkedIn profile or resume link on a target machine.
- Shipped cross-platform macOS/Windows payloads with a safety lock against accidental triggering; published code and setup docs on GitHub.

Personal Cybersecurity Homelab

05/2026 – Present

- Built a virtualized lab (Proxmox, Docker) hosting self-managed services behind a Homarr dashboard.
- Deployed Pi-hole for DNS-level filtering, Tailscale for zero-trust remote access, and Uptime Kuma for service monitoring.

Climate Action Research & Publication — WPI Great Problems Seminar

08/2025 – 12/2025

- Co-authored three chapters of Climate Lessons: Volume 2, an open-access textbook, covering atmospheric science, urban climate impacts, and public perception.
- Led primary research (expert interviews + campus survey) on U.S. climate policy perception with a four-student team.

EXPERIENCE

HVAC Field Assistant — Hurley Mechanical, Canton, MA

06/2023 – 08/2026

- Assisted a senior technician with installation, maintenance, and repair of residential/commercial HVAC systems, including rooftop units and attic ductwork.

Retail Sales Associate — Plimoth Patuxent Museums, Plymouth, MA

08/2024 – 07/2026

- Delivered customer service and processed POS transactions in a high-traffic museum retail environment.
